## **MENTORSHIPS**

**2.5 Credits    Semester    Unweighted**

**Prerequisite: Juniors and Seniors with a GPA of 70% or above in all subjects.**

Mentorship's are available for a select number of students who wish to work directly under the direction of an outside mentor. These students would be matched up with a professional in their field of interest and would complete a project alongside their mentor. Some mentorship's could be conducted at law offices, medical centers or other sites outside of school. The mentor would supervise and evaluate the student's work for grading purposes.
